## PIM Xtreme Crack 2022

PIM Xtreme is a personal information manager. It allows to store any kind of data. Personal information is stored in a separate part called the calendar. The calendar allows to add events, notes, tasks, create recurring events and has a diary to write in. Keep track of the important milestones in your life. The calendar can display them in a grid with all the months along the top. You can view all appointments, birthdays and dates. Each appointment has a name, time, description, location, a reminder and notes. Once an appointment is added, you can view and edit it any time. You can create appointments in multiple calendars at the same time. You can invite a group of people to an event so that they can know about it in advance. You can also create multiple repeating events to automatically send your reminder messages to your contacts on a specific date and time. And all these events are not just for appointments, you can add notes to each appointment and schedule a meeting with a contact. Features: -
